PRODUCT DESCRIPTION

10-7/8" Bollard Cover - Built for Maximum Protection and Long-Term Savings

Protect your bollards and eliminate constant repainting with our premium 10-7/8" bollard cover (10.875" inner diameter, 11.3125" outer diameter, 0.22" wall thickness). Whether you call them bollard covers, post sleeves, or post covers, this is the maintenance-free solution you need.

Manufactured from durable low-density polyethylene (LDPE) with UV additives, this cover is engineered to withstand extreme weather, resist fading, and maintain its clean appearance year after year. Unlike painted bollards that chip, crack, and flake, our covers stay vibrant and durable - backed by the longest fade-resistance warranty in the industry.

Key Features:

• Quick, Tool-Free Installation: Slides on securely with no adhesives, hardware, or downtime.

• Superior Material: LDPE construction with UV stabilizers ensures flexibility and impact resistance.

• Enhanced Safety: Two recessed reflective stripes provide increased visibility for vehicles and pedestrians.

• Custom Fit: Standard 60" length, with custom cuts available to meet your specific needs.

Ideal for parking lots, storefronts, distribution centers, and anywhere durable bollard protection is essential.

Invest in a bollard cover that's built to perform - and built to last.

FREQUENTLY ASKED QUESTIONS

Q: What is the installation method?

Post Guard bollard covers are quick and easy to install. No tools or adhesives are required. Each cover includes 2 strips of installation foam. Simply cross the foam strips over the existing post and slide on the cover!
