PRODUCT DESCRIPTION

4.5" Dome Top Bollard Cover - Long-Lasting Protection with a Clean, Rounded Finish

Stop wasting time and money on repainting! Our 4.5" Dome Top Bollard Cover offers a stylish, maintenance-free solution to keep your posts looking fresh and professional. Whether you call them bollard covers, post sleeves, or post covers, they deliver unmatched durability with no cracking, peeling, or flaking paint.

- Guaranteed fade resistance for 5 years - the longest warranty in the industry
- Quick, tool-free installation - a snug, secure fit without adhesives
- Manufactured from High-Density Polyethylene (HDPE) - built with superior tensile strength, intermolecular bonding, and solvent resistance for lasting performance

Important Sizing Information:

- The dome top is curved, meaning the internal post will not reach the very top of the cover.
- Allow an additional 3" to your bollard's height when ordering.
- Always measure to the highest point of your existing bollard to ensure the correct fit.
- Example: A 52" tall bollard will result in a finished height of approximately 55" when covered.
