PRODUCT DESCRIPTION

7" x 84" Extra Tall Dome Top Bollard Cover - Heavy-Duty Protection with a Smooth Finish

Protect your investment and stop painting your bollards!

Our dome top bollard covers - also known as post sleeves or post covers - eliminate flaking, cracking paint and reduce maintenance costs. Designed with a curved top section about 3" from the end, a standard bollard will not fit fully into the dome. For example, an 81" tall bollard will result in a finished height of 84" once the cover is installed.

- Guaranteed fade resistance for 5 years - the longest in the industry
- Quick, secure installation - no tools or adhesives required
- Made from High-Density Polyethylene (HDPE) for superior strength, durability, and solvent resistance
