PRODUCT DESCRIPTION

Enhance your property with the 2" stainless steel threaded base bollard, designed to provide both surface-mounted protection and a sleek, modern appearance. This innovative two-piece bollard features a low-profile base that eliminates trip hazards, making it ideal for areas where safety and accessibility are critical. Crafted with a durable #304 stainless steel finish, it offers exceptional resistance to corrosion and everyday wear.

Installation is quick and hassle-free thanks to the heavy double wall thickness base and threaded bolt down system. There is no need for core drilling or excavation, making this bollard perfect for fast upgrades or new construction projects. The smooth 12ga steel tube construction ensures solid protection while maintaining a polished look suitable for upscale environments. Fasteners are sold separately. For complete installation instructions, refer to the step-by-step video guide.
