PRODUCT DESCRIPTION

6.6" x 36" Stainless Steel Bolt Down Bollard

This 6.6" x 36" stainless steel bolt down bollard offers strong surface-mounted protection with a clean, professional appearance. Designed for high-traffic areas, it is ideal for safeguarding doors, meters, loading docks, and other exposed assets.

The bollard features a 6.61" outer diameter and stands 36" tall. It is mounted using an 11.5" diameter base plate that is 0.55" thick and includes four 0.75" pre-drilled holes for secure installation. No core drilling or excavation is required.

Crafted from high-quality stainless steel, this one-piece design includes a welded-on cap and is compatible with an optional round base cover to conceal mounting hardware.
