AVAILABLE ADD-ONS

Add-On
Post Guard Yellow Touch Up Paint [SKU: ENCSPRY]
Include (4) 1/2" x 4" Concrete Anchor Bolts [SKU: CABT]

PRODUCT DESCRIPTION

Built for Performance, Designed for Convenience

Engineered from solid Schedule 40 steel and finished in a high-visibility powder-coated yellow, this collapsible bollard delivers outstanding durability and clear visual guidance in any environment. The corrosion-resistant coating ensures long-lasting performance while meeting safety color standards for traffic control and restricted access zones.

Fast, No-Excavation Installation

Forget expensive core drilling—this surface-mounted bollard is ready for quick deployment. The 10.5" x 8" x 2.36" base plate includes four pre-drilled 0.55" mounting holes for a secure fit on concrete or other solid surfaces. Installation is as simple as mark, drill, and bolt. Fasteners are sold separately to match your specific site requirements.

Low-Clearance Vehicle Compatibility

With a folded height of just 2.36", the bollard allows safe passage for most standard vehicles, which typically maintain a 6" ground clearance. For vehicles with lower profiles, such as sports cars, we recommend checking clearance before crossing the collapsed unit.

Customizable Message Panel

Each unit includes a 5" x 30" flat panel ideal for applying decals, reflective tape, or branded signage. Customize the space to display instructions, warnings, or logos for improved functionality and site professionalism.

Perfect for managing parking areas, delivery zones, and temporary access points, the Low Profile Collapsible Bollard offers reliable control with easy fold-down functionality and professional-grade resilience.
