Weight	90 lbs
Dimensions (L x W x H)	48 × 12 × 12 in

AVAILABLE ADD-ONS

Add-On
1 Additional Embedment Sleeve [SKU: EMB6x12]
2 Additional Embedment Sleeves [SKU: EMB6x12]
Post Guard Yellow Touch Up Paint [SKU: ENCSPRY]

PRODUCT DESCRIPTION

This 6" x 36" removable steel bollard is designed for secure access control and high visibility. Featuring a tough yellow powder coated finish, it is built to withstand heavy use and harsh weather while providing a clear visual barrier for safety and property protection.

The bollard features solid two-piece construction with a flush mount embedment sleeve and a smooth dome top. Made from schedule 40 steel, it offers excellent strength and reliability. The bollard is easy to remove or secure in place using an external padlock, making it ideal for areas where flexible access is required.

With an outer diameter of 6.63" and an overall height of 48", this bollard stands 36" above ground after installation. It weighs 54 lbs. and includes an 11.25" by 12" embedment sleeve for secure placement in concrete.

Our removable bollard is perfect for controlling access to roads, driveways, docks, rails, sidewalks, and trails. Its durable design helps prevent unauthorized vehicle entry while allowing easy removal when needed.

Installation tip: To install, set the embedment sleeve securely in a cement foundation. The size of the footing depends on local frost line requirements. For best results, create a gravel base and pour a reinforced concrete footing using rebar stirrups and horizontal

reinforcement.
