Tape Color	Blue / No Tape / Orange / Pink / Red / White / Yellow
Installation Type	Epoxy / Thermo Pad / Without Installation Material
Tube Color	Yellow / Red / White

### PRODUCT DESCRIPTION

Flexstake is the fast, reliable delineator solution for managing traffic flow and increasing site safety. Designed with an impact-resistant tubular post and full 360-degree visibility, Flexstake provides exceptional durability in demanding environments. Whether you're controlling vehicle access, marking parking zones, or defining pedestrian areas, this surface-mounted delineator installs easily on asphalt or concrete with minimal tools and effort.

Each unit includes a sturdy inner core with a hinged post, an 8" round base, and a locking pin for quick release. Available in four standard heights, Flexstake delivers flexibility without compromising stability. Optional 3" reflective tape boosts visibility for added safety in low-light conditions.
