SPECIFICATIONS

Base Size	6" Round
Outer Diameter	2-1/3"
Height	48"
Installation Method	Surface Mount
Weight	8 lbs
Dimensions (L x W x H)	6 × 6 × 48 in

PRODUCT DESCRIPTION

The Gorilla Post is the smart, portable solution for temporary signage and traffic control. Engineered for flexibility and strength, it features a patented magnetic mounting system that allows the post to flex under impact and return to position. Ideal for areas requiring frequent access, cleaning, or snow removal. Its lightweight design and easy removal system make it perfect for temporary deployments in both public and private settings. When not in use, only a low-profile ADA-compliant mounting plate remains, minimizing trip hazards and preserving site aesthetics.

The Gorilla Post is ideal for a wide range of environments including sidewalks, parking lots, parking garages, and ramps. It’s also well-suited for factory floors, loading docks, concourses, pedestrian queues and pathways, as well as drive-through lanes—making it a versatile solution for both indoor and outdoor traffic control.
