Install Hardware	Asphalt 14" Rebar Spikes (4) / Without Hardware

SPECIFICATIONS

Length	6'
Width	6"
Height	4"
Material	Recycled Rubber
Installation Method	Surface Mount

PRODUCT DESCRIPTION

Measuring 72" long by 6" wide and 4" high, this rubber parking curb offers rugged and reliable protection for vehicles and property. Made from 100% recycled rubber, it resists ultraviolet light, moisture, oil, and extreme temperatures. Unlike concrete or plastic alternatives, it will not chip, crack, warp, or fade.

CURBIE™ features three pre-drilled installation holes for secure anchoring on asphalt surfaces. Lightweight and easy to install, it is ideal for both temporary setups and permanent installations. Molded-in reflective tape boosts visibility, improving safety for drivers and pedestrians alike.
