SPECIFICATIONS

Weight	44 lbs
Dimensions (L x W x H)	40 x 30 x 6 in

PRODUCT DESCRIPTION

Improve safety and visibility around parking structure columns with these high-visibility yellow protective planks. Made from durable, scratch-resistant ARPRO® material, each 1.6" thick plank wraps snugly around cylindrical columns up to 24" in diameter. The interlocking edges create a one-piece protective barrier, while recessed strap channels keep the installation clean and secure. Easy to customize for different column sizes, these lightweight panels help prevent corrosion from road salt, moisture, and impact over time. Sold in sets of three. Straps sold separately.
