Park Sentry® 4 Corners - Yellow

SKU: Sentry / PSC-060-Y-CTN

Scan for product page

Highlighted Features

- Bright yellow ARPRO® material enhances visibility and cushions vehicle impacts
- Modular corners and planks fit column sizes from 6.7" to 24" wide<
- 1.6" thick flat panels and 2.2" corners interlock for seamless, full-column coverage
- Recessed strap channels and hidden grommets ensure clean, secure installation
- Weather-resistant and corrosion-proof—ideal for long-term indoor or outdoor use

SPECIFICATIONS

Material	APRO Polymer
Thickness	2.2"
Length	39"
Width	3.35"
Color	Yellow
Installation Type	Indoor / Outdoor
Installation Method	Removable Strap
Weight	5 lbs
Dimensions (L x W x H)	40 × 19 × 8 in

AVAILABLE ADD-ONS

Add-On
Include Set of (2) Yellow Straps

PRODUCT DESCRIPTION

The Park Sentry Pro Corner System in yellow provides highly visible impact protection for square and rectangular columns in parking garages and high-traffic areas. Each corner unit measures 39" tall and is manufactured from 2.2" thick (55mm) patented ARPRO® material, a durable, scratch-resistant polymer that absorbs impact without damaging vehicle surfaces.

Each corner covers 3.35" (8.5cm) of column edge. A full set of four pieces wraps square columns up to 6.7" x 6.7" (17 x 17cm). For larger columns: up to 24" x 24" (61 x 61cm) - these corners pair with 17.3" (44cm) flat panels to form a complete wraparound barrier. The interlocking system ensures a snug, unified fit.

The planks used for wider coverage are 1.6" (40mm) thick and designed for low-profile installation. Corners overlap the planks for continuous protection, especially in the 90-degree zones most prone to collision. The system's recessed strap channels and offset grommets allow for a clean installation with optional mechanical fastening.

Yellow ARPRO material offers maximum visibility and is resistant to moisture, salt, and debris buildup. Optional reflective straps provide an added layer of visibility in low-light conditions.

Each set includes four yellow corner units. Optional straps also available. Black version is also available. For added driver awareness, combine yellow and black pieces to create high-contrast column protection.
