PRODUCT DESCRIPTION

Designed to protect parking structure columns while improving visibility, these ARPRO® planks are a smart solution for high-traffic environments. Each 1.6" thick plank is made from durable, scratch-resistant material and wraps smoothly around square or round columns up to 24" in diameter. Interlocking edges create a one-piece look, while recessed strap channels help secure the installation with minimal visual disruption. Lightweight yet resilient, these planks help prevent corrosion from road salts and debris, and are easy to cut or customize for a perfect fit. Sold in packs of four. Straps sold separately.
