Park Sentry® 4 Corner Protectors - Black

SKU: Sentry / PSC-060-B-CTN

Scan for product page

Highlighted Features

- ✓ 2.2" thick ARPRO material cushions impact and resists scratching or paint transfer
- ✓ Modular corner-and-plank system protects columns from 6.7" to 24" wide
- ✓ Add 1.6" thick flat planks to create a seamless wrap-around with interlocking fit
- ✓ Recessed strap channels and offset grommets allow secure and clean installation
- ✓ Durable surface resists corrosion from salts, moisture, and road debris

SPECIFICATIONS

Material	ARPRO Polymer
Thickness	2.2"
Length	39"
Width	3.35"
Color	Black
Installation Type	Indoor / Outdoor
Installation Method	Removable Strap
Weight	11 lbs
Dimensions (L x W x H)	40 × 19 × 8 in

AVAILABLE ADD-ONS

Add-On
Include Set of (2) Black Straps

PRODUCT DESCRIPTION

The Park Sentry Pro Corner System in black is engineered to protect structural columns in high-traffic environments with durable, high-performance materials. Each corner unit stands 39" tall and is made from 2.2" thick (55mm) patented ARPRO material—a scratch-resistant polymer designed to absorb impact while preserving vehicle finishes.

Each corner wraps 3.35" (8.5cm) around a column edge. A full set of four units will cover square columns up to 6.7 x 6.7" (17 x 17cm). For larger columns—up to 24 x 24" (61 x 61cm)—four planks measuring 17.3" (44cm) wide can be used between corner pieces to create a continuous, wrap-around installation. The system uses an interlocking design to form a unified barrier.

Planks are 1.6 inches (40mm) thick, offering a low-profile solution that still delivers robust protection. Each component is designed with extra thickness and density in the areas most vulnerable to vehicle contact. Corners overlap with planks to provide full coverage at all angles.

A recessed strapping system provides a seamless appearance, while offset grommets beneath the strap channels allow for optional mechanical fastening. The material resists corrosion from moisture, road salts, and debris, making it suitable for long-term indoor or

outdoor use.

The set includes four black corner units. Optional straps available. Also available in high-visibility yellow. Mixing black and yellow enhances contrast and driver awareness.
