SPECIFICATIONS

Material	Rubber
Color	Black / Yellow
Installation Method	Surface Mount
Length	36"
Weight	6 lbs
Dimensions (L x W x H)	36 × 5 × 5 in

PRODUCT DESCRIPTION

This rounded rubber corner guard offers reliable protection for columns, walls, and structural corners in parking facilities, warehouses, and commercial buildings. Crafted from high-impact virgin rubber, it is built to absorb contact and reduce wear on both vehicles and surrounding surfaces. The rounded profile provides smooth, low-profile coverage while high-intensity reflective tape increases visibility in dimly lit areas—especially at night or in tight spaces.

Designed for simple, one-person installation, this corner guard can be mounted temporarily or permanently without heavy equipment. At 36" tall, it installs with six screws (not included) and requires minimal maintenance, making it a cost-efficient and long-lasting solution for damage prevention.
