Rack Sentry 3"

SKU: Sentry / RS75

Scan for product page

Highlighted Features

- 18” Height - Fits any rack with an upright face 3" wide
- Flexible EVA material absorbs forklift impact and returns to shape
- Installs directly to rack upright with no tools or floor drilling required
- Withstands 3 mph collisions from 5000 lb forklifts without visible damage
- Includes two hook and loop fasteners for quick and secure installation

SPECIFICATIONS

Material	EVA
Color	Yellow
Installation Method	Hook and Loop Fasteners
Height	18"
Width	5.25"
Weight	4 lbs
Dimensions (L x W x H)	10 × 7 × 7 in

PRODUCT DESCRIPTION

Rack Sentry rack protectors exceed standards for upright protection, making it a reliable safety upgrade in warehouses, distribution centers, and material handling facilities.

Standing 18" tall and designed to attach to racks up to 3" wide, they attach directly to pallet rack uprights. Easy to install, the included hook and loop fasteners require no drilling or floor anchoring.

Made from durable EVA material, Rack Sentry is engineered to absorb impact by flexing and returning to its original shape, significantly reducing the risk of damage to rack structures, forklifts, and products. Tested to withstand impacts from a 5000 lb forklift up to 3 mph, Rack Sentry offers a flexible and highly visible layer of protection.
