Rack Sentry 3.25"

SKU: Sentry / RS80

Highlighted Features

- ✓ 18" Height - Fits any rack with an upright face 3.25" wide
- ✓ Flexible EVA material absorbs forklift impact and returns to shape
- ✓ Installs directly to rack upright with no tools or floor drilling required
- ✓ Withstands 3 mph collisions from 5000 lb forklifts without visible damage
- ✓ Includes two hook and loop fasteners for quick and secure installation

SPECIFICATIONS

Material	EVA
Color	Yellow
Height	18"
Width	5.25"
Installation Method	Hook and Loop Fasteners
Weight	4 lbs
Dimensions (L x W x H)	19 × 7 × 7 in

PRODUCT DESCRIPTION

Rack Sentry rack protectors attach directly to pallet rack uprights, offering a flexible and highly visible layer of protection against forklift collisions. Made from durable EVA material, Rack Sentry is engineered to absorb impact by flexing and returning to its original shape, significantly reducing the risk of damage to rack structures, forklifts, and products.

Standing 18" tall, it is able to cover intermediate rack uprights up to 3.25" wide. Rack Sentry is tested to withstand impacts up to 3 mph from a 5000 lb forklift without visible damage. The tool-free design uses included hook and loop fasteners, allowing for fast and easy installation without drilling or floor anchoring—eliminating floor stress entirely.

This impact protector exceeds standards for upright protection, making it a reliable safety upgrade in warehouses, distribution centers, and material handling facilities.
