Column Sentry FIT Small

SKU: CS-FIT-S-Y

Scan for product page

Highlighted Features

- Adjustable design fits 4 to 8 inch square columns (Small size)
- Four interlocking sides create a tight, custom fit with uniform protection
- Patented air chamber deflects impact energy away from the column
- Streamlined profile minimizes footprint in tight areas
- Installs easily with new VELCRO fasteners – no tools required
- Made from tough, impact-resistant polyethylene

SPECIFICATIONS

Height	42"
Base Size	4"-8" Column
Material	Low Density Polyethylene
Color	Yellow
Installation Method	Adjustable Straps
Weight	56 lbs
Dimensions (L x W x H)	43 × 25 × 25 in

PRODUCT DESCRIPTION

The Column Sentry FIT is a revolutionary column protector designed to accommodate variable column sizes with a secure, custom fit. Its four interlocking sides slide into place to form a snug, uniform layer of protection around square columns, eliminating the need to guess at exact sizes. The result is consistent, corner-to-corner coverage with a constant safety zone, regardless of the column's dimensions.

Constructed from durable polyethylene, the Column Sentry FIT features Sentry's patented air chamber technology, which helps deflect impact energy away from the column and reduce the force of collisions from forklifts and tow motors. This streamlined solution delivers dependable protection while maintaining a reduced footprint in tight spaces.

Easy to install with new VELCRO fasteners, Column Sentry FIT offers four-sided, uniform protection that minimizes impact damage without interfering with operations. Extension kits are available to expand coverage, and only two sizes are needed to fit most columns:

Whether you are protecting structural supports in warehouses, factories, or loading docks, Column Sentry FIT delivers adjustable, high-performance protection with ease.
