Tape Color	Red / White / No Tape

SPECIFICATIONS

Weight	6 lbs
Dimensions (L x W x H)	25 x 5 x 5 in

PRODUCT DESCRIPTION

These covers are designed to provide added protection for parking gate arms, vehicles, and pedestrians from unintentional contact with a moving gate arm. Each foam-padded gate arm cover is custom made to fit any size and shape, whether straight or articulating.

Each cover features reflective stripes on both ends for increased visibility. Choose from red or white striping to meet your site safety needs and enhance awareness for drivers and pedestrians.

Constructed from high-quality UV-protected vinyl with internal foam padding, these covers offer long-lasting durability and impact resistance. They are mold, mildew, and fade resistant, making them ideal for outdoor use in all weather conditions. OSHA approved for added safety assurance.

For added value, you can include a custom message and logo to promote your brand or communicate important instructions directly on the gate arm cover.
