SPECIFICATIONS

Outer Diameter	12"
Height	42" / 60"
Country of Manufacture	USA
Material	Reinforced Concrete / Steel Rebar
Finish	Acid Wash / Weatherstone
Mount Type	Pipe Insert or J-hook Anchors

PRODUCT DESCRIPTION

The Staples bollard is a round precast concrete security post with a distinctive beveled ring detail near the top. This simple yet effective design combines heavy-duty protection with an architectural accent that sets it apart from plain cylindrical posts. Built to withstand direct vehicle impact, the bollard is a trusted choice for safeguarding storefronts, walkways, and pedestrian areas. The beveled ring can be left in natural concrete, finished in the same color, or upgraded to be stained in a contrasting shade to create visual depth and highlight the bollard’s profile. Its clean look, durability, and flexibility make it a popular choice for retail and commercial sites where both safety and design matter. Staples bollards are available in both 42" and 60"
