Width	16"
Depth	12"
Country of Manufacture	USA
Mount Type	Pipe Insert or J-hook Anchors
Weight	420 lbs
Dimensions (L x W x H)	12 × 16 × 32 in

PRODUCT DESCRIPTION

The Brooklyn concrete bollard has a straightforward look that feels at home in almost any setting. Its slim rectangular shape, softened by a gentle taper at the top, gives it a clean profile without being too sharp or heavy. Cast from reinforced concrete, it has the weight and strength needed to stand up to daily wear, harsh weather, and even vehicle contact. At three feet tall, it marks boundaries clearly without dominating the landscape. Installers can choose between threaded inserts or a core mount, making it easy to adapt to different sites. With a range of Weatherstone and acid wash finishes available, the bollard can blend quietly into its surroundings or take on a stronger visual role when a bolder color is used.
