Finish	Acid Wash / Weatherstone
Mount Type	Pipe Insert or J-hook Anchors
Weight	465 lbs
Dimensions (L x W x H)	18 × 18 × 30 in

PRODUCT DESCRIPTION

The square concrete bollard has a straightforward look that makes it easy to place almost anywhere. Its block form gives it a solid, grounded feel, while the reveal line breaks up the shape and adds a small detail that keeps it from looking too plain. Poured in reinforced concrete, it has the weight and toughness needed to handle impact and weather year after year. With different finish colors available, it can blend into its surroundings or stand out when visibility is the priority.
