SPECIFICATIONS

Width	20"
Height	48"
Country of Manufacture	USA
Material	Reinforced Concrete / Steel Rebar
Finish	Acid Wash / Weatherstone
Mount Type	Pipe Insert or J-hook Anchors
Weight	423 lbs
Dimensions (L x W x H)	20 × 20 × 48 in

PRODUCT DESCRIPTION

The Obelisk Pyramid Top bollard has a taller, slimmer profile than the standard obelisk bollard design. The square base rises in a steady taper, creating a clean architectural shape that draws the eye upward. Made from reinforced concrete, it is built to handle impact and weather while keeping its sharp lines over time. The proportions give it a more vertical feel, which makes it a good fit for areas that need a marker with presence as well as protection. Available finishes allow it to blend with surrounding surfaces or serve as a visual accent in plazas, walkways, or entry areas.
