Add-On
Add 3' x 3' Back Panel

PRODUCT DESCRIPTION

Safeguard your outdoor air conditioning compressor from theft, vandalism, and damage with the A/C Cage Guard. Constructed from durable steel and finished with a black powder-coated surface, this cage measures 3' W × 3' D and features reinforced (3) wire-mesh side panels and (1) top-panel for maximum protection.

The patented top panel design secures all sides with a puck lock (Master Lock® 6270), providing strong security while maintaining easy access for HVAC technicians during service.

Installation is fast and flexible — choose between extended posts for embedded ground mounts or bolt-down base plates for surface installations. The standard cage includes three sides, but a four-sided version and custom configurations are available upon request.
Key Features

• Prevents theft, vandalism, and animal damage

• Quick and simple installation

• Easy technician access for maintenance and repairs

• Patented locking system with Master Lock® 6270

- Mounting flexibility: ground-embedded or surface-mounted
- Large inventory in stock for rapid shipment
