PRODUCT DESCRIPTION

The Smoker's Outpost Classico combines durability and style to keep your outdoor spaces clean and free of cigarette litter. Built from powder-coated steel, it offers a refined look that stands up to even the toughest weather without fading or rusting. Available in three attractive finishes, the Classico blends easily with any building exterior or property design.

Inside, the patented oxygen-restricting system quickly extinguishes cigarettes without the need for sand or water, simplifying upkeep and reducing mess. Its sturdy construction, low-maintenance design, and proven performance make the Classico an ideal solution for entrances, patios, walkways, or any designated smoking area that needs a reliable and attractive cigarette butt receptacle.
